ABSTRACT

Of all the matters our members deal with, the issues around inclusive education generates the most stress and pressure. Inclusive education is very complex and yet some of our members have faced the most incredible challenges and found a way forward in the best interest of both the school and the child. The aim of this day is to discover how to find the way forward in this space and share best practice.

APF Councillors note: A brief State Council meeting will be held at 3.40pm
